...an island of many wonders

A day in Jersey is a day away from the troubles of everyday life. Famous for its temperatures and hours of sunshine, clean beaches, clear seas and incredible vistas, this is an island paradise combining the best of the rest of the British Isles with definite similarities to continental Europe.

With our own currency (interchangeable with Sterling), our own language (although rarely used nowadays), and a whole range of historic and specialist attractions suitable for adults and children of all ages, this is a unique destination where there is never a dull day.
